

Curriculum Vitae

LE THI MINH CHAU, MD, MMSc

Head of Infertility Department, Tu Du Hospital

Office: 284 Cong Quynh, District 1, Ho Chi Minh city, Viet Nam

Experience

- I started working as a clinician in the Infertility Department, Tu Du Hospital from 2004. This is the first IVF center in Viet Nam which has about 2500 fresh cycles and 1500 frozen-thawed embryo transfer (FET) cycles per year. Also, it has 3000 IUI cycles per year.
- In 2010, I graduated Master of Medical Science in Assisted Reproduction Technology in Nottingham University, UK. Moreover, I got training regarding to IVF and quality management in USA and Australia.
- In 2011, I was Deputy Head of Infertility Department, Tu Du Hospital and became Deputy Head _Chief Executive of the clinic from 2012. Now, I'm Head of Infertility Department, Tu Du Hospital

My responsibilities include management of the clinic, delivery of a high quality clinical service to subfertile couples, improvement of effectiveness of IVF treatment, development and maintenance of research activities, training for other IVF centers, and organizing national IVF meetings to update and improve knowledge and experience in ART field.
